

GIRISH FOR SECRETARY

WAYANAD HOUSE • IIT MADRAS ONLINE BS DEGREE • ELECTION 2026

About the Candidate & Perspective

Hi, I'm **Girish** from Chennai, currently in the Diploma level of the IIT Madras Online BS Degree. Like many of you, I joined Wayanad House with excitement, but over time, our groups have become quiet. Messages go unanswered and participation is low. I don't think this is because people don't care—I believe we haven't had enough practical reasons to participate.

My Commitment: I understand that many of us are balancing dual degrees, working as remote professionals, or are occupied with other heavy commitments. I will not make unrealistic or forced promises. Instead, I focus on structured, asynchronous work. I will minimize group chat noise and ensure that the right information reaches the right people.

My Contributions to the House Last Term

- **Regional Coordinator:** Chennai region coordination for meetups and local study support.
- **Academic Sessions:** Handled learning sessions for Maths 2 and Stats 2 Foundation courses.
- **Programming Support:** Conducted sessions for Python OPPE and acted as a course buddy.
- **Development Workshops:** Conducted Flask web development sessions for interested peers.
- **Paradox Achievement:** Won second place in the Python coding challenge during Paradox.

First Actions in Office

- **Google Space Accountability:** Setup an accountable learning environment within Google Space for people to share progress and stay motivated with zero pressure.
- **Website Maintenance:** Maintain the house website to ensure resources, stats, and updates are cataloged.

Planned Actions & Manifesto

■ Academics & Peer Guides	■ Communication & Meetups
• Step-by-Step Guides: Provide documentation for complex tasks like SCT environment setup and lab assignment submissions. • Voluntary Progress Checks: Set up optional daily learning logs for accountability. • Open Contribution: Open the house website codebase for any member to add resources/notes.	• Bite-sized Updates: Move critical updates to small 'info bites' on the house site instead of group chat spam. • Count-Based Meetups: Plan regional meetups only based on headcount surveys, ensuring interest first. • Celebrating Wins: Dedicate a section to highlight achievements and progress of house members.
■ Contests & Collaboration	■ Async & Voluntary Growth
• Hackathons & DSA: Keep tracks of house participation stats and upcoming contest dates. • Inter-House Events: Collaborate with other houses and societies to host combined, high-value career and skill workshops.	• Volunteers for Queries: Recruit volunteers to quickly answer questions, reducing general channel noise. • Participation-Led: Strictly scale other initiatives based on active student interest, respecting study hours.

CONNECT & DISCUSS ANYTIME

Email & Google Chat: 25f1002053@ds.study.iitm.ac.in • Web: <https://wayanad-house.vercel.app/>

Reach out on Google Chat anytime — I will get back to you as soon as possible.
